

BOS 200® PROJECT ASSESSMENT Fuel Hydrocarbons

Project Information

Project Name:
Project Location:
Contact:
Regulatory Agency:

Site Information

Contaminant(s):
Has the site been treated for this contamination before Yes No
If yes, what treatment method was used?

Information Needed for Project Assessment

Monitor Wells

- Boring logs and well completion information
- Tabulated analytical data

Maps and Cross-Sections

- Site Map
- Groundwater Contour Map (if available)
- Groundwater Plume Map (if available)
- Cross-sections (if available)

Groundwater Information (if available)

Depth to Groundwater (ft):
Annual groundwater fluctuation (ft):
Thickness of the contaminated saturated zone (ft):
Thickness of Treatment Area (if different from above) (ft):
Soil Type(s) Present in Affected Aquifer:

About the Plume & Contaminant(s)\

Source Area Dimensions (ft):
Dissolved plume dimensions (ft):
Total BTEX contamination (mg/L)
Type of hydrocarbon contamination (gas/diesel/other):
Is free product (DNAPL) present? Yes No
Are daughter products present? Yes No
